Prepared By (Communications Unit)	Incident Location
Alachua County ARES	County ALACHUA State FL Latitude N Longitude W

The convention calls for frequency lists to show five digits after the decimal place, followed by either an “N” or a “W”, depending on whether the frequency is narrow or wide band.
Mode refers to either “A” or “D” indicating analog or digital (e.g. Project 25) or "M" indicating mixed mode. Use Remarks for any clarifications, to show gateway channels or other ir
All channels are shown as if programmed into a hand held, mobile or control station radio. A Repeater must be programmed with the Rx and Tx reversed. A Base Station is simplex
