1998 Membership Application

Thank you for considering the KN9E/145.11 Repeater system for membership. The 511 system has been in continuous operation since 1985. Did you know that the 511 system was the first in the area to successfully utilize remote receivers? We have used remote receivers from the very first day we went on the air. This system has a total of 4 remote receivers located in Indianapolis in Marion county, Flatrock in Shelby County, Franklin in Johnson County and Mt. Nebo in Morgan County. These strategically located receivers give the 511 system excellent coverage throughout central Indiana with our transmitter located in New Whiteland, 12 miles south of downtown Indianapolis.

New to the 511 family is the KM9S/444.075 repeater located in Whiteland. This system has one local and one remote receiver located in downtown Indianapolis. Both systems offer autopatch with available autodials and full signal to noise voting so you always sound your best. The telephone dialing prefix is the Whiteland exchange (535) and offers toll free calling to all of Johnson and parts of Shelby, Bartholomew, Brown, Hancock and Marion Counties as does the 511 system. Please check your telephone requirements with our dialing prefix to see if it will work for you. Remember that keeping a repeater on the air continuously 24 hours a day takes a considerable amount of dollars each year with telephone line costs, electricity, insurance and equipment failures and upgrade. Please support this machine and help keep it on the air.

Basic Membership to 145.11 is \$18.00 per year (dues are from March through February)
Autodials if desired cost an additional \$3.00 each
Basic membership to 444.075 is an additional \$6.00 per year
