Subject: New Web Page - Surplus Equipment Exchange

Ron, AFA0HQ/AFF0PA, has initiated a new program for AF MARS called "Surplus Equipment Exchange." The idea being that there are probably a number of MARS members, all services, who have in their possession equipment which they no longer have any use for and would be willing to transfer to other MARS members. With that in mind Ron has initiated a surplus equipment exchange web page available to all MARS members. The URL is <http://www.marsregionone.org/AFF3PA/Equipment.htm>

The instructions for listing equipment are explained as well as the methods required for actual transferring of equipment between members. If you have surplus (DRMO) equipment you would consider transferring please do take advantage of this opportunity to advertise that equipment. If you are looking for a piece of radio gear or test equipment, etc, please visit this web page. Or, if you are looking for a specific surplus item, let us know what it is and we will post it on the web page.

If you would, please share this with your members and other MARS services in your area.

Yours in MARS

Regards

Ron AFA3HQ/AFF3PA
