

T1, T1A & T3, FT37-43 with 5 bifilar turns
 T4, FT37-43 with 5 trifilar turns

RP1, RP2 & RP3 select on test for +10 dBm output from O/P 1 and O/P 2

O/P1 connects to the RX mixer via a 3 dB pad. O/P 2 connects to a rear panel socket marked Synth Out.

I/P is directly from the RX synthesiser.
