

## ATV Station for Salem Hams

### Typical components:

Camera-broken VHS Camcorder or Hi-8 Camcorder

VSB Transmitter-some by PC Electronics and VSB-70

Amp-Mirage 100 watt

Antenna-downeast high gain model

900 antenna widely available paging beam available very low cost

Receiver for 900-available on eBay near \$95 (board only, make a case)

TV-discarded flat panel from Goodwill or simple DVD screen (under \$30)

Supply-any power supply capable of producing enough current

Keep on the look for simple substitutes for items, such as Pawn shop screens
