Lee (N8LT) was the club's technical expert. He was willing to share his knowledge with anyone that had a question about the hobby. He could fix anything! Lee was actively involved in club activities, and most of the time he had a lead role in a project. We relied on Lee to keep our repeaters and packet system operating smoothly. Most of all, Lee was a dear friend who found pleasure in helping others.

*Today was a sad time in our lives,  
We lost a great friend.  
He was a person who would do anything to  
help others.  
He would go out of his way  
and not complain.  
His kindness touched many lives.  
He was loved by many people.  
But he left this world today and we will  
always miss him...  
his wonderful smile...  
his marvelous laugh.  
Sometimes life is not fair.  
In the end we must accept the circumstances  
but our lives will be changed...forever.  
We will miss you Mike.  
Good bye my friend.  
We love you.*
