REPEATER

The repeater was off the air for about a month back in April. I sent out a note to the members to try and check it out to see how it sounded at there locations. The only reports I received were from the Berrien county members of skywarn. For your information the repeater was sent to Kenwood and the replaced the whole pa section at no cost to us. I asked Howard to give SMR a check for \$75 For all the work they did before sending it to Kenwood and reinstalling the machine.
