Greetings:

As a member of the Greater Mason County Amateur Radio Association let me extend an invitation to join the ham club. I am sure you are aware the club has been here for many years and many individuals have been members in the past. Whether you have been busy with life or other interest have taken over, this may be a good time to rekindle interest into the group.

Club activities have varied from service at community events, class and test sessions, gaining operating experience on field day, to donations and fund raising for club expenses. The club most certainly could use assistance in any of these areas of interest. Attendance to meetings or functions is not required but would be great. Whatever your level of interest or participation would greatly be appreciated.

The club meets at the Maysville City Chamber hall usually the first Monday of the month at 7PM. We still have the net check in on Sunday Night at 8:30PM on the club repeater of 145.470- and also linked is the Beachburg repeater on 146.955- as well. Anyone that is a licensed operator is always welcome to check in. You do not need to be a member to use the repeater, it is there for the community to use. Hearing more hams check in would be welcomed if only reporting in as 'short time'.

As you may be an organization, an agency or individual, I would encourage you to join as an associate member, of only \$5. If a person does hold a license then, \$15 annual fee would be appropriate. Any additional funding above the membership rates would be considered a donation to the club.

The membership would allow you the opportunity to stay informed of club activities. Our funding supports the community by meeting equipment and operational expenses used for communication. Attendance to meetings and the club's web page are one of a few ways to stay informed of club action and meeting information. You can be as involved as you choose. Hope to hear from you.

Sincerely,

David Clark, KC8KPM
