### MAKE FETRONS PAY

If you have vacuum tube equipment in your facility, FETRONS will save money for you. The following is a suggested approach to determine how. It has been compiled from experience by applications of FETRONS at Teledyne.

1. Survey your equipment for the number and types of tubes, and types of equipment.
2. Consider setting up trial locations for field tests for the most pressing needs. Evaluate the results.
3. Teledyne will support your investigation with applications assistance. Take an in-depth look at the savings achievable with the FETRON.
4. Let Teledyne know your needs. They have experience where it counts and are anxious to help.
