Getting the Comm Van Ready for Field Day

The Starter for the Generator is Right Here...

...And That's How You Start It.

...And the Light Switch is Right Here!

This is why we do a preliminary check. No one expected our wire antennas to get left out in the rain. Note the rust stain on the storage container.

... Should work Like a Charm!

...It REALLY Should!

...Piece a Cake!!

Anthony Farrulla, K6AMF makes a point to Dorothy Escobar, W6DME while Kim Yancee of the Los Banos Enterprise files his report and the Latronicas enjoy the refreshments

With temperatures in the 100's, it was definitely a "dog day afternoon" as Dave Anderson, KG6NUO, his dog Brandy and unidentified guests will affirm.

W6YD arrived just in time to help with clean-up.

**REMEMBER THE JULY MEETING IS OUR
ICE CREAM SOCIAL
DON'T EVEN DARE TO MISS IT!!**
