## **Meeting Minutes - Febraury 7, 2003**

(as reported by Gary Elliott)

February's meeting was a historical first. The officers' wardroom was to close to noise from an on going needle gun project. It was suggested that we hold the meeting outside as the weather was very mild. So, for the first time the meeting was held outside, port side next to # 4 hold.

Most of the usual cast of characters attended plus the President of the East Bay Amateur Radio Club [EBARC], Randy Jenkins, ka6bqf. The on going projects and subjects were discussed, as usual. Then the meeting was adjourned and the work party "turned to"

I want thank all who attended the meeting and those who were in the work party. Some members had other commitments and could not partake in the fun times. The work party was ramroded by Ivan, wb6piv and Larry, ae6dz. Able assistants were Vicki, kf6zct [who didn't even know about the work party], Peter, w6dei, Vern, aa6ye and Capt. Nolan. And yes, I didn't do anything. I was giving Randy the million \$ tour of the ROV.

The accomplishments of the work party exceeded my highest exceptions. I saw a lot of sweat and dirty clothes from the volunteers. That means they were having a good time. Except for the really heavy articles [and they are heavy and awkward] the compartment is cleaned out. Hopefully by next meeting Ivan and I will have the heavy stuff moved out and the space will be totally clear. The next work party can move the non-original "stuff" into the cleaned out compartment. So this is a warning that the next work party will be the after the next meeting, moving stuff from the warehouse to the aft end of the ROV.

After the next work party there will be pizza and liquid for all ROVARC members. Even if you cannot help with the heavy moving or a lot of walking we still need your moral support, encouragement and company.

Gary [until the next e-mail] EEEEEEEElliott, wa6kcp for k6yvm

Respectfully submitted: David Jackson,  
Secretary, Red Oak Victory Amateur Radio Club
