

The following Greek radio-amateurs

SV4AAQ Dimitris	SV4AFY Katerina
SV4FFF Kostas	SV4FFK Thanasis
SV4FFL Kostas	SV4JYI Panagiotis
SV4LAX George	

will activate the **Trikeri Lighthouse**, with identification number **ARLHS GRE-128**.

Along with the expedition operators, the following radio-amateurs will participate for one day out of the two planned for the expedition:

SV4FFB John	SV4FFE George
SV4FFI John	SV4JYK Sotiris
SW4JYL Nikos	SW4LAD Dimitris

**It is the first time that the specific lighthouse will be activated,
for radio-amateur purposes!!!**

The Trikeri Lighthouse activation will take place during the first weekend of July (**5 & 6 July 2008**), with the special callsign **SY4LH**. The lighthouse is situated on Point Kavoulia, about a ten-minute hike from the Geroplina Settlement of Trikeri, in the Gulf of Pagasetikos.

Locator: 39.05.77N 23.03.05E

Gridsquare: KM19MC

you will be able to hear us on all bands, **160m-2m** in such modes as **CW, SSB, PSK, RTTY, SSTV**.

Initial estimates on the equipment status, have come to

HF Rigs: ICOM IC-737A, ICOM IC-706MKIIG, ICOM IC-725, YAESU FT-757GX

VHF Rigs: ICOM IC-910 (for VHF use, in order to enable colleagues to run up points for the Aegean VHF Contest, that will be taking place that weekend), Kenwood D710 (APRS), Kenwood D700 (DX Cluster),

Power Supply Units: 2 X Power Generators SGC950, Samlex 25A, Feroe 30A, Amarad 50A

Antennas: Pair HF Extended Double Zeppelin 20+20m with open wire 450 Ohm, Single Dipole 40m (G5RV), single Vertical HF SpiderBeam 18m Fiberglass Pole, Pair Ant. Coupler RUN4 1KW, single Ant. Coupler 200w, 3 PC with Logger32.

QSL Manager: SV4FFK
