Dear Brother Ham:

W. G. N. C. M.

The committee on interference has reported that your station has bad key clicks on the 20M band covering 150 KC on either side of your main carrier. This adjustment of your transmitter is in violation of the Federal Communications Act and will cause you considerable embarrassment if you get a pink slip from the R.I.

Yours truly,

W. S. Clayton, Jr.  
Secretary  
S. C. C. A. R. A.
