## Expeditionary Station while in Franklin

... work 38 Virginia cities/  
counties, ...got credit for 9  
more because I made at least 10  
QSOs from those and 24 states.

... 175 QSOs, with only one  
mobile (none other than our  
Keith KG4ZXK who was  
maritime working  
KI4RXC/MM)

Take note of the Home Depot  
orange bucket in the  
background.

It is filled with about 30 lbs of  
concrete to support two 10'

lengths of electrical conduit (along with two ropes attached to the top and staked from behind the bucket for added support). It supports the opposite end of a 40 meter length of 14 gauge wire.

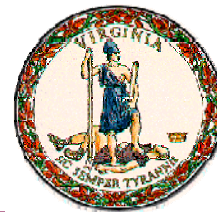

Also notice the balun just below the 10' length that is supported from the bed of the truck.

This arrangement worked great for all bands except 80 and 160. Most of my contacts were on 80, but my signal was weak and I really had to work hard to get through pileups. My rig was an IC-7000 and an AT-7000 tuner from LDG.

...expedition station.

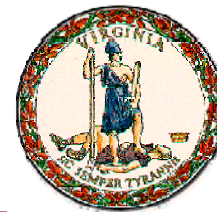

Had a lot of fun  
operating portable from 4  
locations.

Here's a picture of my  
setup at Haven Beach,  
Mathews, VA.

That's an 80m inverted V  
doublet up 45 ft. That's  
Bill NR4C on the left  
and me on the right.

Thanks a lot, Gordon, for your efforts. Because I won't be able to attend the Awards Ceremony, please pass along my thanks also to the plaque sponsor and to the other QSO party organizers.

Things just seemed to go smoothly on the air this year; 40 meter propagation was good to me.
