FROM THE EDITOR

Thanks for the support I have received on the newsletter. I have had to throw the last two issues together. The first because I am new at this. And this one because, I was on the road with my job.

I did go on two interesting trips. The first was in Grand Rapids MI. working on a laser that anneals some information and a logo on diesel engine fuel injectors. And the second trip, I took my (apprentice?) to Grove City PA. to install a laser that etches timing degree marks on a 20" cam gear for a locomotive engine. My goodness, I never thought much about locomotive engines, but I saw 16 cylinder engines that literally have pistons the size of gallon buckets!

I meet one gentleman that called my 100 watt YAG a "baby laser" we then followed him over to his 70KW CO2 welding laser!

On both trips we traveled in snow. I never though I would say this but "I am ready for spring"! Why can't salesmen sale to places like the Bahamas?

Once again I am open to any comments, suggestions, etc. on the Newsletter.
