September Club Minutes

The September meeting was canceled due to the low membership attendance.

However the members present decided with the forecast of possible impending weather from the hurricane the picnic would be canceled, messages were put on both repeaters and members that I have email addresses for were notified.

Also the cause of the 146.925 de-sensing problem in the A.M. hours has been traced to the Paint valley School bus radio system. Mike Doty W0MNE discussed plans to tune the 925 repeater cavities and possibly build a notch filter.

Mike also put on a very interesting demonstration of a LCR meter and a transistor/diode tester he has built. The transistor tester may be available as a kit from Mike in the future.

In memory of Dave Huff KA8WWI

On September 21st 2004 SVARC club member Dave Huff became a silent key. Dave was active in the club, on many picnics Dave would pick up an instrument and join the band. Dave and his wife Ann also recently donated the new tower for the 85 repeater. Remember Ann, & Dave's family in your prayers.

Newsletters available in E-mailable format

We have had more members recently request to receive the newsletters via email Thanks! One added benefit of being on the emailing list is; If any event occurs that may need faster notification such as the two events this past September, you will receive a email as soon as I get the information.

You also receive the news letter almost a full week ahead of the printed version. John Mand has requested as many members request the email newsletter as possible.

If you would like to try it let me know.
