Number 3

New License Structure Proposed

The ARRL will ask the FCC to create a new entry-level Amateur Radio license that would grant HF phone privileges without a Morse code test. The League also will propose consolidating all current licensees into three classes, retaining the Element 1 Morse requirement--now 5 WPM--only for the highest class. The ARRL Board of Directors overwhelmingly approved the plan January 16 during its Annual Meeting in Windsor, Connecticut. The proposals, put forth by the ARRL Executive Committee, were in response to changes made in Article 25 of the international Radio Regulations at World Radiocommunication Conference 2003 (WRC-03).

"Change in the Amateur Radio Service in the US, especially license requirements and even more so when Morse is involved, has always been emotional," said ARRL First Vice President Joel Harrison, W5ZN, in presenting the Executive Committee's recommendations. "In fact, without a doubt, Morse is Amateur Radio's 'religious debate.'" Harrison said the League's proposal would provide "a true entry-level license with HF privileges" to promote growth in the Amateur Service.

The League says its proposal would continue a process of streamlining the amateur licensing structure that the FCC began more than five years ago but left unfinished in its Amateur Service license restructuring Report and Order (WT 98-143) that went into effect April 15, 2000.

A new entry-level license class--being called "Novice" for now--would require a 25-question written exam. It would offer limited HF CW/data and phone/image privileges on 80, 40, 15 and 10 meters as well as VHF and UHF privileges on 6 and 2 meters and on 222-225 and 430-450 MHz. Power output would be restricted to 100 W on 80, 40, and 15 meters and to 50 W on 10 meters and up.

"The Board sought to achieve balance in giving new Novice licensees the opportunity to sample a wider range of Amateur Radio activity than is available to current Technicians while retaining a motivation to upgrade," said ARRL CEO David Sumner, K1ZZ. The ARRL plan would grandfather current Novice licensees into the new entry-level class without further testing.

The middle group of licensees--Technician, Tech Plus (Technician with Element 1 credit) and General--would be merged into a new General license that also would not require a Morse examination. Current Technician and Tech Plus license holders automatically would gain current General class privileges without additional testing. The current Element 3 General examination would remain in place for new applicants.

The Board indicated that it saw no compelling reason to change the Amateur Extra class license requirements. The ARRL plan calls on the FCC to combine the current Advanced and Amateur Extra class licensees into Amateur Extra, because the technical level of the exams passed by these licensees is very similar. New applicants for Extra would have to pass a 5 WPM Morse code examination, and the written exam would stay the same. Sumner said the Board felt that the highest level of accomplishment should include basic Morse capability. Current Novice, Tech Plus and General licensees would receive lifetime 5 WPM Morse credit.

Among other advantages, Sumner said the plan would allow new Novices to participate in HF SSB emergency nets on 75 and 40 meters as well as on the top 100 kHz of 15 meters. The new license also could get another name, Sumner

(Licenses continued on page 4)

From the President
"Stogie" KG6JCW

I would like to thank all who helped to clean out the shed. We located things that we had no idea existed. We still need to check and repair the antennas. Most look like they are all there. We have at least one that is just a pile of parts. The other thing I would like to do is to mark the antennas and make assembly instructions for the complete ones. I would like to have this evolution happen on the first Saturday of March.

As for field day I have been hearing some club member on the radio stating that we should move the event to a better location. As of the meeting Thursday the members in attendance voted to look into the possibility of the move for the 2005 field day. If anyone has any suggestions please contact Mike Maston, N6OPH. Please remember that this is a Social Event for the Club and is the only time we see some of the club members each year. The primary purpose of the event is to prove that we can assemble and operate station under simulated emergency conditions. It is not a contest for points; we cannot compete with the likes of the DX Club. In the past this has been a fun event and I would like to keep it this way. We have people come because they can park a camper on the site or use one of the cabins. With out these facilities we could lose some of the members. So if you propose a site please take into account all the members needs. Also remember the site has a good easterly view. The last several years the bands have not opened up completely and we have had some problems with conditions. 6 Meters one of the toughest band to operate on has had some contacts into Kansas and Arkansas during the past two years when the band was open. So lets see what happens this year.

GENERAL MEMBERSHIP MEETING

Amateur Radio Club of El Cajon
12 February 2004

The meeting of the general membership of the Amateur Radio Club of El Cajon was called to order by president Stogie Panger, KG6JCW at 1900hrs. After the pledge of allegiance visitors were welcomed.

This evening's program was given by Pat, WA6MHZ. His presentation was microwave devices within amateur radio. After the break, the meeting resumed:

SECRETARY'S REPORT It was moved and seconded to approve the minutes as published in the *Counterpoise*. The motion was carried.

TREASURER'S REPORT was given by Susan, KF6WXA. It was moved and seconded that the Treasurer's report be approved as read and filed for audit. The motion was carried.

PRESIDENT "Stogie" Panger, KG6JCW announced that the club still needs a Social chairman. Should there be no volunteers he would be forced to select a chairman. The Christmas Party of 10 December at the same location as club meeting site. A caterer still needs to be located for the party. The club field day shed was cleaned up.

TECHNICAL chairman Bob, W6RHV reported on the condition of the 220 machine and the rest of the club repeater equipment. A duplexer is needed for the 220 machine. The club also needs a few antennae for the repeaters. Duplexers will cost around \$800 or so. The water district has not decided yet on repairing the site for the repeaters.

VICE PRESIDENT Tom, KC6NXZ is still looking for a program for the March meeting. Field day will be the topic of the June meeting. Tom also reported that the US House of Representatives is considered HR1191 regarding PRB-1 nationwide. Chili cook off will be held on 20 March at La Mesita Park in La Mesa.

SANDARC report was given by Larry Plummer, AE6AV. He stated that SANDARC has moved its meeting location to the Kearny Villa Lodge and that the meetings will start at 1900 instead of 1830hrs. Mike, N6OPH will be attending the NCVEC conference in July in Gettysburg, PA. Mike, N6OPH has also been appointed as the temporary chairman of the 2006 ARRL SW Division Convention. He is looking for subcommittee chairs for the convention. The team leader meeting will be held on 19 February at CoCo's restaurant

WELCOMING chairman reported that there are 52 members and 7 visitors present at this evenings meeting.

MEMBERSHIP chairman Joni, KF6MPB stated that there are 3 new members. The visitors are Earl, K6KEU, Joe, KG6IMC and Mike KG6TDP. The last WAMO issued was 1643.

EDUCATION report was made by Mike, N6OPH. The Technician class will conclude on the last Tuesday of February. The

General theory class will begin the second Tuesday in March (9 March).

NEW BUSINESS:

Rich, N6NKJ reported that the Hillsdale School is experiencing budget cuts and they may not be able to hold amateur radio classes or demonstrations at the present time.

Rich also reported on the Red Flag patrol basics.

OLD BUSINESS:

Stogie mentioned the Christmas Party. The club decided that the same basic menu as previous parties would be used.

Mike, N6OPH read the text of each of the proposed constitutional changes.

Change in the meeting day and time amendment was ready by the club secretary. There was no discussion. It was moved and seconded to accept this amendment. Motion was carried.

The amendment concerning the suspension of the officers and board members was read by the club secretary. It was moved and seconded that the amendment be accepted by the club. Motion was carried.

There were a club announcement regarding the sale of club apparel. The shirts will be \$10 and the caps are \$5. The jackets will be \$15.

Tom, KC6NXZ stated that there is considerable discussion regarding changing the location for Field Day. It was moved and seconded that the club study the possibility of changing the location of Field Day in 2005. An amendment was offered that the president appoint a committee of three to study this problem and report back to the board and membership before the end of the year. The amendment was carried. Another amendment was offered to conclude the study before field day 2004. This amendment was carried. The main motion was carried. Stogie appointed Bill, KD6QB, Mike, AE6CQ, Karl, W1NNI and Mike, N6OPH. Mike, N6OPH was appointed as chair of this committee. This committee will submit its report before field day 2004.

There was no further business before the general membership; the meeting was adjourned at 2040hrs.

Respectfully submitted

Michael P. Maston, N6OPH
Secretary
Amateur Radio Club of El Cajon

Hey, Spread the word!!!

What? General Class

When? 9 March 2004

Time? 1900hrs

Where? El Cajon Fire station

Magnolia and Lexington

Instructor: Mike Maston N6OPH

**A Great program is
planned for the next
meeting!! Be there!!**

HELP WANTED!!!

The Club is in need of a chairperson!!

The Social Chair.

The duties are as follow:

REQUIREMENTS FOR SOCIAL CHAIRMAN

The Social chairman is responsible for the club's social activities. These activities include the acquiring of the foodstuffs needed for the field day, the club picnic and the club Christmas party. During the field day event he would provide the food to the venue and either help cook or distribute it make arrangements to have this done. With the leftovers he provides for the club picnic in August. He does most of the shopping required for the club food events and stores it before each event. He advises the club president on the manner of hosting club food events and other social activities. His social duties are not limited to just the food; however most of the work that he needs to do does involve food. In the past the social chairman has arranged for the catering or potlucks at the club Christmas party and other events.

If you would like to help out in this position, contact the Prez at 263-4439 or by e-mail at stogie@cox.net

**We all have an expiration date,
but it's not stamped on our behind,
So, live each day to the fullest,
'cause life doesn't come with "rewind"**
Pat Starkey Testa

(Licenses continued from page 1)

said. "We're trying to recapture the magic of the old Novice license, but in a manner that's appropriate for the 21st century."

The overall proposed ARRL license restructuring plan would more smoothly integrate HF spectrum privileges across the three license classes and would incorporate the "Novice refarming" plan the League put forth nearly two years ago in a Petition for Rule Making (RM-10413). The FCC has not yet acted on the ARRL plan, which would alter current HF subbands.

The ARRL license restructuring design calls for no changes in privileges for Extra and General class licensees on 160, 60, 30, 20, 17 or 12 meters. Novice licensees would have no access to those bands.

See "ARRL to Propose New Entry-Level License, Code-Free HF Access" on the ARRL Web site, <http://www.arrl.org/news/stories/2004/01/19/1/>, for the specific subband allocations ARRL is proposing for each class.

The amateur community and other interested parties will have an opportunity to comment on the ARRL proposal once the League formally files a Petition for Rule Making and the FCC puts it on public notice.

Let me remind you of the Calendar of Events!!
