

## Ray and Doris

Rejoice with us that a new radio station is on the air reaching the Nasa people in their own language in Colombia.

Alvaro has a heart for reaching his people by radio so Ray guides him in setting up the equipment by cell phone video.

There is a great presence of subversives in this area so we pray people will be encouraged by hearing God's Word. Ray was in Bolivia and Colombia this year.

Pray with us that soon the equipment in customs will be released so that the station at Lomalinda will reach further into Colombia and Venezuela.

Our heartfelt thank you for partnering so faithfully with us by prayer and support.

**Wishing you a Merry Christmas and God's blessings for the New Year.** *Ray and Doris*
