This message was handled at no charge by a licensed Amateur Radio operator, whose address is shown in the box at right above. No compensation can be accepted by an Amateur Radio Operator. A return message may be filed with the Amateur Radio Operator delivering this message to you.

The Caribbean Emergency & Weather Net was established for the purpose of having an emergency and general calling frequency for the Caribbean Basin inclusive of North and South America. One of the net functions is to handle emergency traffic. The Net convenes at 10:30 and 22:30 UTC daily on 3.815 MHz Lsb. It also activates in cases of disasters with 24 hour coverage.
