To Date: 2/1/2015

Time: 1100

Number of DCS Members: 6

Hours: 34.25

Please Attach A Copy of the Sign-In Sheet

DCS Incident Commander: Deane Bouvier, S-50

Net Control Operator(s): Norm Thorn Unit I.D., T-219

DCS Safety Officer(s): Deane Bouvier Unit I.D., S-50

Command Post Location / Address: Crown Plaza Hotel, 300 North Harbor Drive, Redondo Beach, CA

Purpose of Activity: Provide safety and health communication from the Start/Finish area and at every mile marker on the course.

Who Requested DCS? Name: Redondo Beach DSW Organization

Agency: City of Redondo Beach

Overview of the Event / How Was DCS Used: Communication support for the race, augmenting the Redondo Beach DSW organization. Disaster communications field training activity.

Suggestions / Issues: There was (and still is) a stuck carrier on the frequency pair we were to use with the K6UU portable repeater. Therefore we switched to the W6HA repeater near LAX. Coverage from W6HA was not as good as anticipated, but we still provided a vital service to the event and therefore the city. In addition to routine race traffic, we assisted with communications related to several medical issues. Our service was specifically recognized by the Race Director and Chief of Police who was on site.

Equipment / Modes of Communications Used: 440 MHz HT radios, W6HA 440 repeater

Other Agencies Involved: Redondo Beach Police Department, Redondo Beach Fire Department, Redondo Beach Public Works Department

Prepared By: Deane Bouvier

Unit I.D. S-50

Date: 2/2/2015

After Action Reports are to be submitted to the Executive Staff no later than 10 working days after the Event / Incident
