Time: 0500

To Date: 2/3/2019

Time: 1100

Number of DCS Members: 10

Hours: 56

Please Attach A Copy of the Sign-In Sheet

DCS Incident Commander: Mike Semos T-100

Net Control Operator(s): Ray Day T-88,

DCS Safety Officer(s): Deane Bouvier S-50,

Command Post Location / Address: Crown Plaza Hotel, King Harbor, Redondo Beach

Purpose of Activity: Provide safety and health communication from the Start/Finish area and at every mile marker including turnaround on the course, medical tent and venue area.

Who Requested DCS? Name: Sgt. Douglas Shive

Agency: LASD

Overview of the Event / How Was DCS Used: Communication support for the race, augmenting the Redondo Beach DSW organization. This event is effectively a disaster communications field training activity. 10 LACo DCS Members, 2 RBPd Disaster Communications Members, 2 PVEPD NART Disaster Communications Members and 3 addition operators staffed the event. According to race organizer there were near 7,000 runners plus a large spectator crowd.

Suggestions / Issues: There were no communications issues using the Palos Verdes Estates DSW Neighborhood Amateur Radio Team's UHF repeater. The repeater had 100% handheld coverage over the entire operational area. The event Race Director was 100% satisfied and appreciative of the teams radio communications support especially with rain which added to possible issues. This demonstrates the significant advantages of having a productive relationship with neighboring cities.

Equipment / Modes of Communications Used: 440 MHz FM HT Radios; W6PVE FM Repeater

Other Agencies Involved: RBPd had a complete full showing of all officers including reserves, armored vehicle, two K9 Units for bomb detection, SWAT on Hotel roof top, many undercover officers and RBFD with a Battalion Chief, an engine and paramedics. No other outside agencies were utilized this year.

Prepared By: Mike Semos T-100
