August 3, 2009

Ray Enriquez, President
W6TRW Amateur Radio Association
One Space Park - S/1156
Redondo Beach , CA 90278-1071

Dear Mr. Enriquez,

1. Our acting District Communications Officer (DCO) for the Lomita Station has informed us of your generous offer to allow the Lomita Station Disaster Communications Service (DCS) group use of your W6TRW 2m (145.320) repeater for manmade or natural disaster communication purposes and weekly Monday night nets. We also appreciate that, with prior notice to your designated Board liaison (currently Stuart Gorsky, K9STU), Lomita Station DCS could use the W6TRW 2m repeater for training drills and community service events. As you may know Redondo Beach , is one of the cities in the Lomita Station's area of responsibility along with Hermosa Beach , Torrance , Lomita , Palos Verdes Estates, Rancho Palos Verdes , Rolling Hills, and Rolling Hills Estates.
2. We understand that this 2m repeater was used in the past in support of the Lennox Station DCS group. The Lennox DCS group is not active at this time and the W6TRW's previous association with them is not currently needed. Consequently we request the use of your 2m repeater to support the Lomita Station. Individual members and city organizations in the Lennox area of responsibility will be supported as part of the Lomita Station activities as appropriate.
3. Should the Lennox DCS group be reactivated in the future, the two DCOs, under the supervision of the DCS Executive Staff, will work out any joint use if that becomes necessary. In addition, the Los Angeles County Disaster Communications Service will hold the W6TRW Amateur Radio Association harmless should the repeater become inoperable.

We look forward to continuing a long and fruitful relationship in the best interests of the citizens of Los Angeles County and thank you for your strong support of disaster communications in the South Bay. If you have any questions, please contact me at Staff10@lacdcs.org.

Respectfully,

Debby Miles

Staff 10
