- Priority 1**= Life threatening/growing danger – **radio in immediately to cache** (fires, rupture gas line, exposed utility).
- Priority 2** = Non-Life Threatening, but urgent. Property damage/**Small** Fires (size of a trashcan), potential of growing danger, CERT can handle.
- Priority 3** = for all other, i.e. response can be delayed or minor.

We only send the data highlighted in green using the following procedure:

Net Control , CERT Team 6 , I have one Damage Assessment Form <pause> **Wait for go ahead from NC.**
 Date: 09 01 19, Team #: 6, Percent Complete: 60 <pause> **Wait for go ahead from NC.**
 Block 1: 4
 Block 2: 8
 Block 3: 3
 ...
 Block 15: 1
 Block 16: 0 <pause> **Wait for acknowledgement from NC or requests for fills. Provide fills as needed.**
Completed form normally goes to Planning
