THE TUNED CIRCUIT

Club Website: http://www.n8lc.org

NOVEMBER 7TH MEETING PROGRAM

The November program will be
Nominations for Officers and other unspecified merriment.

MEETING time is 7:00 PM

Reminder!

2018/2019 LCARC club dues are due *NOW*
Bring your money and the Membership Request form
on page 15 to the club meeting,
OR
Mail your check as instructed on the Membership Request form.

December TC Deadline: November 26th

Next Meeting - **7:00 PM November 7th 2018** at the Tucker Senior Center (see last page for map and address).

Meeting Program - The program for our November meeting will be as reported on page 1!.

The NEXT board meeting will be on Wednesday, November 14th, 2018.

L'Anse Creuse Amateur Radio Club

46th Annual Swap & Shop

SUNDAY, SUNDAY, SUNDAY!

DECEMBER 2, 2018

See the flyer HERE

N8HAR will have flyers available at the November meeting, or contact him directly to get some flyers if you can't make the meeting.

Report of the Secretary

Submitted by Dave, N6WY

Meeting Called to Order:
The LCARC President (John, N8NXW) called the October 3rd 2018 meeting to order around 7:05 PM.
Roll Call: I counted 19 members responding to roll call.
Status of Members.
Keith, W8KD, is in the hospital. Due to Keith's illness, Cathy, KC8WNK, will fill in for Keith as the acting Christmas Party Chairman. See or contact Cathy for Christmas Party tickets.
Minutes Approval.
Marty, K8HVI, made the motion to approve the minutes and Debbie, KC8WHN, provided the second.

Treasurer's Report by Gregg, N8GEO:
Total amount in the account is $3514.14. The Youth Fund has $24.24. The Repeater Fund has $639.42.

Where's Doug, N8PYN: The USECA Swap is the 28th of October, 2018.

Repeaters Status:
Ken, KD8RJN, is working the antenna upgrade at the current site. Ken followed up on a lead from Doug, N8PYN, about a person that does tower work. This person let his certification and insurance expire for tower maintenance work. Dale, K8RO, said that without certification and insurance, we can't use him. Ken is also looking for a possible new repeater location.

QSL Manager Report by Dale, K8RO: 147 eQSL's. Rejected only 3.

Net points Award by Clem, W8VO:
W8VO, Clem received 3100 points. No other awards this month.
The LCARC Thursday night 2 meter net needs a Net Control.

Membership Chairman and Tuned Circuit Editor Report by John, N8FYL:
LCARC has a total of 66 members. Two members received a free membership last year and they need to renew for the year. Many members renewed their membership at this meeting by giving Gregg (treasurer) a completed membership application and dues payment.
The deadline for the next Tuned Circuit Newsletter is 29 October.

Old Business:
Hamvention.
Gregg, N8GEO, said that the Dayton Holiday Inn Express has agreed to hold 20 rooms for LCARC members that are attending the Hamvention. When you make your reservations, ask for a room in the Crump block. Let Gregg know that you made a reservation. The 20 rooms are 5 rooms with single king and 15 rooms with 2 queens.
MCC Tech Night.
John, N8NXW, said that the LCARC tech night at Macomb Community College is still in limbo.
Board Meeting.
John, N8NXW, announced the next board meeting is 14 November. The official start time is 7:00 PM to eat and 7:30 PM for business. Meeting location is Roseann's (15 Mile and Gratiot).

(Continued from page 2)

Swap Chairman Report by Russ, N8HAR:

The LCARC swap is on Sunday 2 December. Swap flyers are available at this meeting. Russ will take flyers to the USECA swap.

Dale, K8RO, has the swap master mailing list and he will update that list.

Mark, N8REZ, and his wife will manage the kitchen.

John, N8FYL, will be the cashier.

Ken, KD8RJN, and Fritz,KE8BFW, will sell tickets up front.

Doug, N8PYN, will do security.

Set-up time is Saturday 1 December at 6:30 PM.

Presentation:

Ike Cabase, KE8ESS, gave a talk about the Sterling Heights CERT organization. The Sterling Heights CERT, or Community Emergency Response Team, is a group of trained volunteers who can be called into action when the city's professional responders have been overwhelmed by a massive number of emergency calls due to a widespread disaster or other incident.

New Business:

Winter Field Day.

The Winter Field Day runs for 24 hours during the last full weekend in January each year from 1900 UTC (2pm EST) Saturday to 1900 UTC (2pm EST) Sunday. For 2019, the dates are January 26th and 27th. Gregg, N8GEO, reported that at the last Winter Field Day, LCARC had about 10 people participating at the Tucker Center. Although LCARC did not operate their Winter Field stations for the full 24 hours and did not qualify for the outdoor bonus points, LCARC accumulated a significant number of points. For 2019 Winter Field Day, Gregg has obtained permission for LCARC to use the Tucker Center for the full 24 hours of Winter Field Day. The Tucker Center will be available on Saturday morning (26th of January) for set up and for around 3 hours after the end of Winter Field Day on Sunday afternoon (27th of January) for tear down and clean up.

VE Sessions.

Gregg, N8GEO, said that he needs help at the VE sessions. LCARC has 10 members that are certified as VE's and 4 members that actually participated in administering the FCC licensing exam. Gregg wants 4 or 5 certified volunteers for each exam session. For 2019, Gregg has scheduled the 3 exams on Monday nights in addition to the exam given at the LCARC swap.

Nomination for Board Members.

Ken, KD8RJN, announced that board member nominations occur during the November general meeting.

Door Prize Winners					
Name	**Prize**	**Name**	**Prize**	**Name**	**Prize**
Clem,W8VO	heat shrink	Rick, K8RWM	solder	Ken, KD8RJN	wire nippers
Marty, K8HVI	meter				

50/50 Winner	Dave, K8GTV	$13.00

Meeting adjourned:

John, N8NXW, adjourned the meeting at 8:45 PM

Membership Report

As you can see in the blurb on page 1, dues are now due for the 2018-2019 club year. (Our dues year begins November 1st) As of today more have renewed (31), than have yet to do so (26). This keeps us at 66 members: 57 regular members (1 who is enjoying the last months of their "first year free" experience), and 9 life members.

Please remember, submit your dues and membership form to our Treasurer Gregg/N8GEO so the money goes into the club accounts PDQ. Gregg then gets the forms to me for the membership database.

John / N8FYL — 10/31/18

ARRL Sweepstakes is Imminent

(Click the link above to go to the ARRL Sweepstakes information)

CW: First full weekend in November   (**November 3-5, 2018**).

Phone: Third full weekend in November (**November 17-19, 2018**).

Contest Period: Begins 2100 UTC Saturday and runs through 0259 UTC Monday.
Thus for the CW weekend that is 5 PM on Saturday (11/3). We switch back to Standard Time during the contest, so the ending is at 9:59 PM Sunday (11/4), while the SSB edition starts at 4 PM on Saturday (11/17), but still ends at 9:59 PM on Sunday (11/18).

LCARC Christmas Party

Submitted by Keith / W8KD

Burrrrr, winter will soon be showing its face. That means that two of the radio clubs important activities are sneaking up on us. The Swap and Shop and the Christmas Party.   The Christmas Party starts at 6:30 December 12th at Sajo's located at 36470 on Moravian Drive just west of Garfield Rd. The menu includes your choice of four of entrees. You can have either Pecan Chicken, Steak Portobello, Sesame Bourbon Glazed Salmon or Chicken Alfredo. There will be cake for desert. The menu includes house salad, soft drinks, coffee or tea. Alcoholic beverages are available for purchase. That evening will include the transfer of the gavel to the new president. The cost is $20 per person. We have to provide Sajo's with a firm number expecting to attend by the end of the month. So be sure to get your ticket or make arrangements with Cathy KC8WNK to hold tickets for you. I am sure that it will be another great evening.

PACKET NETS ARE STILL POSSIBLE,
<u>WITHOUT A TNC OR A RADIO!</u>

By Ralph - W8ROI

Until the fate of the club's packet gear, until recently in downtown Detroit, is settled, any form of Packet Radio nets is quite limited. The packet system in Washtenaw (MI) is most often available, but it has its 'downtimes'. There is a similar/identical system in Ottawa, (MI) and in some cases, the two stations are linked together. Each has a "Converse System", accessible with the command "CONV" or "CONF".

APRS is 'alive and well' in this area, but since I don't operate that mode, I can't offer any wisdom.
- - - -
For those who operated packet in metro Detroit, back in the 'Good Old Days', you probably remember that there were stations from all over the globe available on one of the 32,000+ channels.   Yes, these systems have over 32,000 'channels' where two or more stations might congregate and have their own 'peer-to-peer' or keyboard to keyboard conversation, on Packet Radio.

Washtenaw and Ottawa are located in or near some sort of Emergency Operating Center, and that activity has priority over 'casual chatting'. Washtenaw has Radio equipment and a TNC to support radio packet operations. It was while DETQSO was operational that it was possible to telnet to WASHTENAW and then make a packet radio connection to DETQSO.
- - - -
There is yet another packet system located in Quebec, Canada. It is open to anyone who can access it. The call of the station is VE2HAR. The 'callup' is
                            ' ve2har.dyndns.org '
Depending on the computer you are using, you might use:

                <u>telnet ve2har.dyndns.org</u> [RETURN]

    (From here on, I will not bother to include the [RETURN] with each sequence to the packet system.)

There are a number of routines and applications that will allow one to TELNET to this location.
[see below]

The Quebec station is also accessible via radio if you are within some miles from it, just like any other packet operation of years back. I don't know the frequency used by VE2HAR for those within 'radio-range' of the station.
- - - -
Recently there was an official(?) Packet Net on a Tuesday evening at 8:30 pm using the QUEBEC station's packet facilities. No radios are involved when one TELNET's to a location somewhere on the internet.

Most Mac computers that are not too old have a built in 'terminal' program which supports telnetting. It is called, "TERMINAL" making it fairly easy to remember and launch. As for the PC world, all I can suggest is finding some form of "PUTTY" which allows telnetting on some PC computers. It is a free download if it is not on your computer. https://www.putty.org/ Other than the name, I know absolutely nothing about it.

(Continued from page 5)

I am going to supply a few lines of text, generated as I logged onto VE2HAR along with the expected responses, etc. This is just to give an idea of how to proceed, once you have a telnetting routine in your computer.   Action text and replies from the distant station will be in standard type and my comments and observations will be in *italicized bold type*. [Editor—what one types is in BLUE text]

7

(Continued from page 7)

If you go into the Converse system early enough in the day, you may find someone to chat with on Channel 11. I've made several friends in England from going there for casual chats. Don't expect an immediate response. Some of these stations will go to their 'radio room' or computer terminal every 10 or 15 minutes to see 'what's happening'.

There is a way to keep your call in the system 24/7, but I don't yet know what it is. When I find out I will pass the word. This would be useful for most of us to keep your call in the lineup if you happen to be called away to the phone, or something. Not certain of the time lapse needed to cause this.
- - - - - - - -
I invite any and all LCARC members to give this a try at any time, 24/7, just for your own curiosity. If you were on packet in the 'good old days' of DETQSO, some of this will be familiar to you.
- - - -
Our Packet Net is scheduled for Tuesday evenings at 8 pm local time. It won't hurt to show up a few minutes early, to check things out and get yourself situated on Channel 80. Until the 'station count' gets higher, there will be no Net Control. Just hoping that people will not be inclined to make comments while another station is 'talking'. It is possible to direct a comment to one station only. As it is, when you are in the Converse System, anything you type will show to ALL STATIONS on the Channel. For those who are interested in this, join us on the Net some Tuesday and I will reveal this most important secret!

I hope that this has created more information than confusion. Trying it is the best way to learn. I will be happy to work with anyone to help familiarize them with the operation. Send me an e-mail or give me a phone call. (w8roi@wowway.com - 586-731-6760)

For now,

73,

Ralph - W8ROI

ALUMINUM T-REX ANTENNA

IT'S AN OLDER DESIGN.

I finally finished this older QST antenna project but I can't get her to load! It says I need 3 inch ladder line with 6 inch diameter spacers in her. If anybody has any I'd appreciate being able to buy them!

WINTER FIELD DAY 2019 Reminder!

Submitted by Gregg / N8GEO

In last month's Tuned Circuit we had an article about January's Winter Field Day event. Well it appears that we are good to go for operating this event at the Tucker Senior Center.

Here are the particulars:

- Tucker Senior Center
- Harrison Township
- 2019 Winter Field Day
- January 26 2019, 9 AM - Sunday the 27, 2019, 5 PM. (Contest time is from 2 PM Sat until 2 PM Sun).

Winter Field Day Link: www.winterfieldday.com

Come on out and operate for 30 minutes or stay all day and enjoy the friendship, drink some coffee and bring a pot luck to share. It's looking to be a great time. Keep the weekend open (LOL what else do you have to do in the middle of the winter) and come on out and play and visit for a bit. Hey we have flush toilets and heat (what a deal).

See ya there. 73

Gregg

2019 Hamvention Rooms Info

Submitted on 10/08/18 by Gregg / N8GEO

At the October club meeting I promised that I would post the telephone number so you could make a reservation for Hamvention for next year (2019). We will be staying at the same place as in 2018.
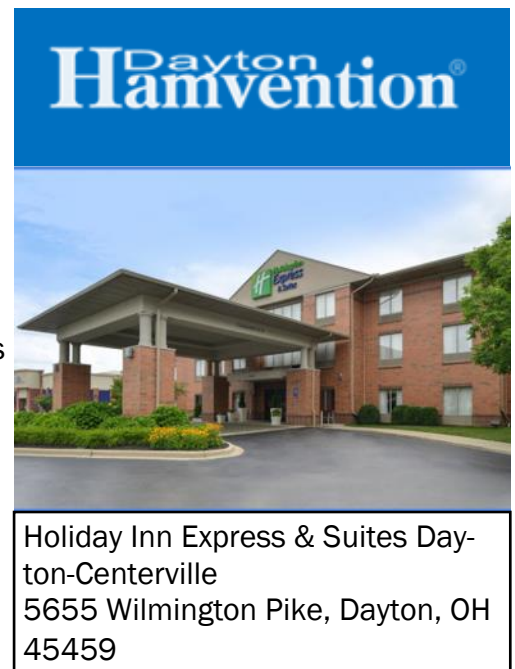

Our block of rooms (15 double queens and 5 kings) are under the title of Crump Block. Just call this number 937-424-5757 and press the number 1 button on your phone. You will be connected with the reservation agent and they will take your information. All you need are the dates that you will be staying and a credit card number to hold your reservation.

If you need to cancel you have until 6 PM of the day prior to your reservation starting to cancel without any penalty. If you miss that window you will be charged for one night.

Please make your reservation by April 1st of 2019. After that date I will cancel any extra rooms and return them to the hotel.

I ask everyone that makes a reservation to send me an email (n8geo.ham@gmail.com) letting me know what days and what type of rooms you have reserved. I would like to keep track of how many rooms we have left.

Excerpted from Dale's Tales for November 2018

A SPECIAL NOTE from AC8W

Great Lakes Division

Fellow Great Lakes Division DXers:

Given the evident popularity of the new FT8 mode of communication demonstrated by the data collected in LoTW showing a seven figure increase in the number of monthly QSOs year over year resulting from the explosive adoption of the mode by hams worldwide, and the extremely high percentage (approximating 40%) of all QSOs being made with this mode at the current sunspot minimum,

The DX Advisory Committee (DXAC) is investigating the advisability, feasibility and desirability of creating or modifying one or more digital mode awards in the DXCC program to accommodate encourage and reward new modes of amateur radio activity on the bands.

How do you feel?   Should we:

a) Create endorsement stickers for the existing Digital DXCC (i.e. RTTY-100; PSK31-100, JT65-100, FT8-100, etc with incremental stickers 125, 150, 200 and so on)

b) Create a separate DXCC award for each mode

c) Do nothing at all and leave new digital modes under the existing Digital DXCC.

Are there other options?

Your opinion is important so let me know at ac8w@arrl.net .

Deadline for responses is Wednesday, November 14, 2018.

Thanks

Stan Arnett II AC8W
DXAC Representative
