

“My Covid Prayer”

Dear Heavenly Father up in thy Kingdom above.
Please remind your children of an undying love!
Let not this evilness that was mankind created.
Go unpunished for those so politically motivated.
How can there be such of an evil hearted generation.
Who would create a virus bent on destroying our nation?
Lord Jesus, will you please come and intervene?
Take this accursed disease from those deemed so mean!
Break the spirit of the mind who thought to ever create.
This dreadful Covid virus I have come to desperately hate!
And let not your wrath be one that is short lived.
Make those remember a holiness begging to be forgiven!
I pray for those who have been taken away by this disease.
I ask your tender mercy to those loved ones needing some ease!
Let not their heart remain troubled from this evil-filled act.
Please Dear God, remind them of a Judgement Day fact!
Comfort all those who'll suffer symptoms of this dreadful thing.
Help them to speedily recover from what medicines can bring.
May we be reminded while this disease finishes its course.
There is a home in Heaven for those murdered by this source!
As my own family has now come to know and realize.
This dreadful disease certainly no longer holds a surprise!
It is quite easy to catch and spread this most vicious of ills.
We will never forget those worrisome fevers and chills!
And with this thought in mind for those who may be next.
Just know you are not alone as you recall all of this text!
