

1. Incident Name: GARS FIELD DAY SETUP	2. Incident Number: GARS0001	3. Date/Time Initiated: Date: 6/19/2018 Time: 9 PM
---	------------------------------	---

**8. Current and Planned Actions, Strategies, and Tactics:**

DAY / TIME	ACTIONS
THU AM	CANOPY TENT to be picked up / setup, northwest corner of field
FRI 7 AM	Breakfast at County Foodly
Following breakfast	Begin to set up Trailers & Generator: Travel trailer northwest corner south of large canopy tent., FEMORS to the south of that, running east-west, with the generator inbetween.
	Note: Gordon will drive the <b>Generator</b> on trailer to the breakfast, drop that off, chained to a tree. Then drive home and pick up the <b>Travel Trailer</b> , drive that to the site, position, and move the Generator into position / secure as best as possible. This will allow A/C during radio setup. The solar power battery system will be set up at that time. Then drive home again and pick up <b>Solar Panels</b> , provided they can be secured overnight inside a trailer or vehicle. (otherwise they will not be delivered until Saturday).
Friday AM	Shannon & Larry to pick up FEMORS trailer from Med. Examiner office Gregory Sporer will pick up the Tower Trailer [I'm not completely clear on the date/time for that.]
Fri approx. 9-10AM	Begin installation of radio equipment. TS480 for voice, Yaesu 857 for CW/Digital
Fri evening	Gordon will attempt to capture W1AW bulletin
SAT 9AM	Begin installation of 160m Buckmaster (from tower), 80 meter Buckmaster, multiband trailer YAGI, and irrigation pipe vertical with remote tuner at base (RON).
SAT 2 PM	Commence Field Day On the Air operations
SAT evening	Evening meal: non-operators please bring potluck dish; Pizza to be ordered for operators.
SAT evening	Shannon will have a complete count of volunteers for the Section Manager bonus email.
SAT evening	Gordon will send bonus Section Manager email, likely using "free" VHF station
SUN NOON	Expect shutdown and beginning of cleanup/teardown to commence.
