

MALAWI COMMUNICATIONS REGULATORY AUTHORITY

Angoni/Zalewa Road P/Bag 261 Blantyre Tel: 265 1 623611 Fax: 265 1 623890 e-mail dg.macra@malawi.net

APPLICATION FORM FOR RADIOCOMMUNICATION LICENCE

For official use only.

Application No.:

Date:

Section 1 (To be filled in by all applicants)

Name of applicant															
Purpose of application															
Postal address of applicant (All subsequent correspondence will be sent to this address)															
Physical address of applicant															
Category of applicant	<input type="checkbox"/> Government department <input type="checkbox"/> Commercial Organisation <input type="checkbox"/> Non-Profit Organisation NGO	<input type="checkbox"/> Other (Specify)													
Planned date of operation															
Telephone number Fax number		Company registration number (attach copy Certificate)													
e-mail address															
Details of company Directors	<table> <tr> <td>Name:</td> <td>Tel:</td> </tr> <tr> <td>Name:</td> <td>Tel:</td> </tr> <tr> <td>Name:</td> <td>Tel:</td> </tr> <tr> <td>Name:</td> <td>Tel:</td> </tr> <tr> <td>Name:</td> <td>Tel:</td> </tr> <tr> <td>Name:</td> <td>Tel:</td> </tr> </table>			Name:	Tel:	Name:	Tel:	Name:	Tel:	Name:	Tel:	Name:	Tel:	Name:	Tel:

	Signature:		Date:												

Section 2 (To be filled in by applicants for PMRs and Centralised Alarm Systems)

Information about the radio station						Note 1&2
Station Name						
Station Latitude (deg/min/sec)				Station Longitude (deg/min/sec)		
Station Elevation above sea level (m)				Coverage area		
						Note 3 Note 4
Number of vehicle mounted radio stations		Number of handheld radio stations		Number of fixed radios (central alarm sys only)		Note 5
Manufacturers of equipment						
Model of equipment (attach copy of manual)						
Emission designator				Rated power (W)		
Expected loss (dB) in feeder cable				Frequency assigned (MHz)		
						Note 6
Antenna make (attach specifications)						
Antenna model (attach radiation pattern)				Azimuth of max radiation (deg clkwise from North)		
Antenna gain in the direction of maximum radiation (dB)				Antenna height above ground level (m)		
						Note 7
Antenna polarization				Horizontal bandwidth (deg)		

Note 1: A separate form shall be completed for each and every fixed radio station applied for except for centralised alarm systems.

Note 2: For the purpose of this form, a radio station comprises of one transmitter frequency.

Note 3: Station elevation is the height of the ground above mean sea level.

Note 4: The coverage area is to be described. If the system is point to point, give the corresponding station name and location.

Note 5: In case of maritime and aeronautical radio stations attach relevant information about the vessels.

Note 6: If the operating frequency is unknown, leave this entry blank.

Note 7: For the antenna gain state reference e.g. "relative to the isotropic radiator".
