

E.A.R.T.H

Emergency Amateurs Responding To Help

On 5-20-2014, members of the local ham group held a meeting.

In attendance were:

Jeff Teer KF7LEX

Rene Lopez,Jr. KF5KYL

Ed Warwas W5OE

Eddie Olivarez KF5UEZ

Randy Ashley N5YK

Joe Cobos KG5BPK

Dick Rogers WB5TUG

Maryland Rogers AC5TQ

Jeff Teer agreed to hand over the license trusteeship to whom ever would pick it up. The group had agreed that John Beardan KC5WBG would be the new trustee.

The main topic of discussion was, who the EARTH members are and should we continue the same club or start a new one. Since we don't have a roster we decided to send out emails and make contacts with as many members as possible to try to figure this out and to determine what assets the EARTH club owned. (Money, repeater, radios, antennas). We are aware of a 40ft mast and a tripod used for field day that is in the hands of Rene KF5KYL. He also has a table top repeater. Working condition is unknown.

No one was opposed starting a new club but we will give an opportunity for the old EARTH club member to come forward.

Another meeting is set for **Saturday, 31ST AT 2PM (1400hrs) at the McAllen Library, conference rm B.** Those in attendance will then make the determination of creating a new ham club.

Eddie KF5UEZ was elected interim president until that meeting so we may get the trusteeship rolling. We urge all old EARTH members to come to this meeting and to spread the word.

Rene Lopez,Jr
KF5KYL
