

From old newspaper

Wednesday morning Nov. 22, 1922 -- The San Jose Radio Club held its regular business meeting Monday night in the directors room of the Chamber of Commerce, electing the officers who are to start the organization on its second year of existence. Before the election other new business was disposed of, the most important being the matter of affiliation with the American Radio Relay League, the national association for amateurs. The results of the election were as follows: president, Frank Quement; vice president, Harry Engwicht; secretary, Lloyd Case; traffic officers, Harry Engwicht and Frank Quement; executive board, Harry Engwicht, Charles Holdiman, Lloyd Case, Bert Wendt and Armand Humburg. At the next regular meeting next Tuesday night Engwicht will present a paper on amplifiers, containing material on both radio frequency and audio frequency and the different methods of coupling the successive steps. This paper will contain much valuable information not only for the operating amateur of long standing but for the novice who has only recently started listening, it being the policy of the club to have its programs of such a nature they will be interesting to all who are interested in radio and the club cordially invites all broadcast listeners to come up and

Wednesday morning Dec. 14, 1921 -- Wireless Concert to Be Given by student. Jack Gilleran, pupils of the Longfellow School will erect wireless apparatus in the assembly hall of the school for the purpose of entertaining members of the Parent Teachers Association tonight.

Gilleran has been interested in receiving concerts over the wire and is an amateur expert in receiving. All parents and members of the association are invited to be present.

Saturday morning, Dec. 31, 1921 -- San Joseans will dance to music relayed over the air at the Hotel Vendome through the courtesy of Herrold Laboratories. The music will be transmitted through the San Jose Radio Shop's high powered station at Sunnyvale, 6XA ?

Harry was student of Herrold

May 20, 1923 - Mercury

The regular meeting of the San Jose Radio Club was held last Monday evening at the clubroom in the Chamber of Commerce building. A purely business meeting was held. It is the request of the club that all complaints by broadcast listeners be phoned to the traffic officer of the club. Mr. C.W. Holdiman of 565 Spencer Ave. Prof. Charles D. Herrold will talk next Monday night. His talk will be non-technical and of interest to all.

Jan. 16, 1923 -- Local Radio Amateur is Heard ~~in~~ 6300 miles

Frank Quement, president of the San Jose Radio Club recently received a communication which was read at a meeting of the club last night in the Chamber of Commerce Hall, entitling him to the long distance radio transmission record, among local amateurs. Quement's station, 6NX, was heard by a commercial ship operator 300 miles off the coast of China and some 6300 miles from San Jose. The ship operator, formerly an amateur, recognized the call and wrote to Quement informing him of the incident. At the same meeting four new members were taken into the club.

Membership in the organization includes local amateurs who are interested in radio experimentation.

Sunday Morning Nov. 12, 1922 -- Charles D. Herrold to lecture tomorrow

At the regular meeting of the San Jose Radio Club tomorrow night the members and visitors will have the pleasure of hearing Prof. Charles D. Herrold lecture. Professor Herrold states that his subject will be of vital interest to all broadcast listeners and amateurs, and it is the wish of the club that all interested in the reception of broadcasts be present.

Professor Herrold is the real father of broadcasting, having given concerts using the arc system of transmission as far back as 1910. He is therefore, well qualified to lecture on broadcasting. The club will hold an election of officers at 7:30. All members are urged to be present. The lecture will start at 8 p.m.
