Logs: CARBON COPIES OF EACH LOG SHEET MUST BE KEPT:

Last year we were tops on the coast and sixth in the Nation. We scored 11,874 points with 1567 contacts. We are shooting for 2000 contacts this year and I think we can do it. That means a real concerted effort by all members for top flight operating in their group.

This is no one man show. The combined effort of everyone last year put us up with the tops in the nation. It will take the same cooperation and effort to keep us there again this year.

Thanks again fellows. See you on the hill.
