

### FUTURE PROGRAMS

Plans have been set for the majority of the club programs/meetings for 1968.

The subject matter and speakers for the next five months are as follows:

- February - Roy Tice - Transistors (Designs for hams)
- March - Frank Quement - Commercial side of electronics
- April - Doc Gmelin - A R R L
- May - Stan Benson - Antenna measuring
- June - Field Day preparations

Some other programs planned are for talks on new licensing, Nay Landry, Frank Glass and Al Guatano.

### THANK YOU

I want to take this opportunity to thank all of the people in the club for the help and cooperation over the last two years. It has been a very enjoyable two years. It is a job that is work, fun and at times frustrating. It is gratifying to note that our membership is up about 80 % our participation at the meetings is up 100%, and our club activities are up at least 100%. We have dropped the business portion of the meetings in favor of better speakers and giving them a longer time for talks and demonstrations, and only bringing up the necessary items at general meetings.

Let us give Dale the same cooperation and help this year and I'm sure that we will see the same increase in all phases of operations. Get out to the meetings, and all the activities that the club works in, and I'm sure every one will have a good time, get some interesting information, and enjoy ham radio a little bit more.

Hal Whitfield, past president, WA6HVN

HAPPY NEW YEAR
