

PRESIDENT'S MESSAGE

Your president hopes that the New Year is filled with Happiness, Health and Prosperity for you---and that you will share all these good things with all of your fellow SCCARA club members.

Happiness---such as the joy of those who attended the Christmas Party, enjoying an outstanding meal and a surprise dollar refund---and then got to see the rest of VP Otho's European movies. Those who didn't make it were doubly missed: they missed a wonderful meal and a good party, and we missed their good company.

Happiness---such as that had by those who made the various meetings and many interesting programs over the past year---- and particularly by those who won the fine door prizes or raffle prizes.

Such happiness do we wish for you all----and you will automatically share it with your fellow members!

Health---good health, so illness doesn't keep you away from any of the meetings. Good health, to permit your participation in any work parties, antenna raising, emergency tests and Field Day. Thus will your fellow members share in your good health.

Prosperity---so the payment of your dues will be easier for you. Fewer dues in arrears will benefit all members--so your prosperity will be shared by all members!

In the coming year for SCCARA, I hope to see a continuation of the fine programs, but with bigger turnouts, and I hope to see increased participation on the part of all members in all club events. I hope to see MORE of you at MORE meetings doing MORE things for SCCARA. Let's make 1973 a big, big year for SCCARA .
