November 1962 Bulletin

At our regular meeting on Oct. 8 Alf Modine, K6TWF, demonstrated and described his closed circuit amateur television equipment, which he hopes to have on the air shortly.

He was bugged by a gremlin running thru the circuit but managed to give a very interesting presentation of his equipment. It would seem that anyone interested in television experimentation should have a direct pipeline to a tube factory. Many thanks, Alf.

Program November 12.

Chuck Towns, K6LFH, will present the complete and revised story of Oscar II with the newly edited film and 35 mm slides. He may also have some good information on the new Oscar to be launched next spring.
