### SCCARA January 1963 Bulletin

Our new officers were installed at the annual Christmas dinner on December 8th, and we all look forward to a big year for SCCARA. Loyd Calvin W6KG gave a very interesting talk on amateur operations outside the states, accompanied by film and slides. This program pleased the ladies, as well as the om's present. Doc Gmelin, W6ZRJ gave the shortest talk of his career, by saying only, "Merry Christmas".

#### Program January Meeting - January 14, 1963

Chuck Towns K6LFH, will describe the design and operation of his highly efficient mobile antenna. He will also give us the latest scoop on Oscar III, which is scheduled to go up this spring.

#### VHF-UHF Activity

The VHF-UHF group in this area have proved that homemade equipment is still popular, and a worth while activity. The combined board of directors noted that our best attendance over the past two years has occurred when programs concerning VHF-UHF were presented. This is still a field where commercial equipment is scarce, and a good man with a soldering iron and plumbing tools can make a reputation for himself. So, perhaps do-it-yourself rigs are not as dead as the dodo bird.

#### Literary Talent Department

President Frank is looking for a member with a flair for writing, and a knowledge of what's going on ham wise around Santa Clara Valley. So, why not volunteer for the job before he has to appoint someone.
