

# THE JUNK BOX

First Edition

Hi gang, here is your first edition of the S.C.C.A.R.A. club paper. We hope to make it a regular monthly paper, with your help it can be done.

Here are several squares, there is one for each one you, all you need to do to fill yours is to let me know about some "rare DX" you have worked or an unusual happening or incident that would be interesting to the rest of the gang and "presto" the square is full of words and we have a paper, easy huh!

Hey you young guys, are you trying something new, let me know!!

On the TVI front, the committee had a real stubborn case on the westside recently, we are waiting for the final word at this writing.

Our good friend Al-W6DAE is about to change his QTH to the westside, in fact all he will have to do to talk to W6WGO is open the window and yell "Hey Paul"!!

 "The QRM Twins"

Hey Carmen KN6BMQ how about giving your address on your QSO's huh??!

I had a bit of triangulation, damn me, I mean triangulation trouble, but our good man with the figures put me straight, who else but Pop W6FON.

Speaking of the Nelsons, what has happened to that potent signal W6AUS used to put out, in fact, what has happened to Walt?? Hear tell he is a good baby sitter, but only if you have twins!! 

Plans for the Xmas Party are coming along nicely and those of you who missed it last year cut yourself in on a good time and be at this on. Yessir!

Don't forget this is election month and in order to vote, you have to be there, so be there!

This paper does not (editorially) play politics but, I had to accept this "paid political announcement"

Vote  
+  
W6NX

(reasonable rates on ads, one off frequency 1N32 crystals)

Well fellas, this just about winds it up and we are open for suggestions and criticisms to make the next one better.

Hey, do you know what one ohm told his friends when we current tried to crush him, sorry - answer in next edition.
