Hi,

We are looking forward to this again this year.

We will be setting up a portable radio station. We will need space to set up an antenna and a generator for power.

~~We prefer a location on the end of a row on the west side of the event. Last year's location was~~
OK.

We normally place the generator away from all and run a power line from the generator to the radios.

In addition, we usually string a wire antenna between some sign posts or trees.

See you at Sterlingfest,

Gordon, NQ4K
