Fairfax County

40/80M Last year, the 80M band was really good for me. I will try that again this year. When I run out of stations on the 80M band, I will switch to 40M.

CW I have been trying to learn CW. Still very slow, but the only way to get better is to work at it. I will primarily work CW.

If things get slow, I will move to **RTTY, again on 40/80M.**
