

WA3GIN

King George County

I was planning to be mobile this year with a renovated broadcast van but I needed to install a new engine and the first Jasper engine was faulty and have had to start over again. It won't be ready for this year;-)

I'm never sure I'll play until the weekend of the event... you know I've come in 2nd seven times and I'm beginning to think I will never WIN, haha.

This year if I play I'll use SDR for the edge if such a thing is possible....seems mother nature has most of the power over my results.

How about a plaque for vintage radio stations 50yrs or older ;-)
single op? That would be a hoot!

73,
dave
