High Virginia Mobile
Multiple Operator

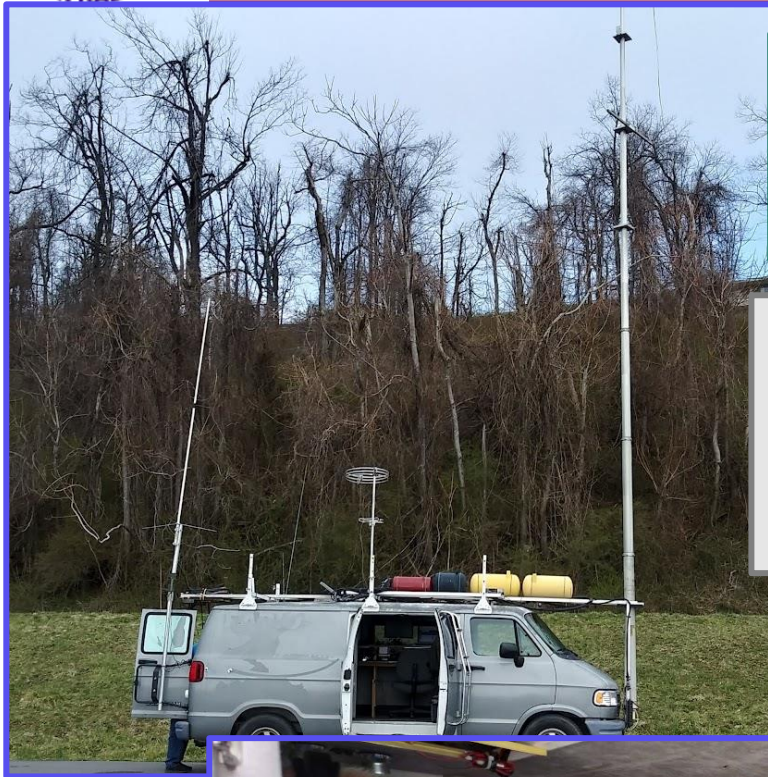

Bert (N4CW) is in the backseat operating where we stopped in Lee county. On top of the car are a Tarheel model 75 and a backup Antronic 20m whip. We hit such hard rain at one point the Tarheel developed sporadic SWR which forced us to the backup for a bit while things dried out.

That's our mascot Scooby-Do lashed to the Tarheel :) Many thanks for putting on a fun event. We had a great time.

The VAQP turned out much better than I hoped for!

The Carolina Windom worked very well. I had set a goal of 260 contacts but made 691, although 38 of those were dupes.

I worked many on SSB on Sunday who thanked me for a new county which was one of the things I was hoping for.

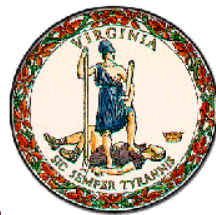

Here's a picture of me at the station in my mom's detached garage.

Thanks, Mike NJ2OM

State QSO Party Challenge Impact on VQP

- Goal:
 - Recognize participation in State/ Province QSO Parties.
 - 47 parties in all
 - Scoring:
 - Total number of contacts X
 - Number of QSO Parties entered (at least 2 QSOs).
- Big increase in entries:

449 to 613 to 667 to 679 (in 2022)
- Be interesting next year!
 - Covid continuing to have less impact
 - State QSO Party Challenge still on

2023 Rule Changes

Changes for 2023

- Added Rover station category
- Redefined mobile station category
- Changed points for contacting Rover and Expedition to 3 points
- Updated definition of Virginia Club
- Added ARRL Volunteers-on-the-Activity to encourage participation and points

2023 Rule Changes

Station Category - MOBILE

An **ordinary everyday** station operating from a vehicle which is capable of operating while in motion and operates stationary in the same configuration,

- i.e., able to travel at any time without having to disconnect any wiring or change any antennas in order to move.
- A mobile station is self-contained and capable of legal motion (land, water or air) while operating.
- Commercial power may not be used.
- Contacts may be made while moving or stopped.

The spirit

“A station designed for everyday use and not designed for contesting”

2023 Rule Changes

Station Category - EXPEDITION

A station that moves between two or more Virginia non-permanent station locations.

- All radio equipment, power supplies and antennas must be transported to each operating site.
- Commercial power may be used.
- Mobile radios, equipment, and antennas installed in, on or attached to a vehicle wholly for normal mobile operation are not permitted to be used in this class.
- The vehicle may be used as part of the setup once stopped in the temporary location.
- An expedition may not make contest contacts (including contest QSO coordination) while moving regardless of origin or destination.

2023 Rule Changes

New station category - ROVER

A vehicle-mounted designed for contesting and is not a mobile or expedition station.

- The rover may make contacts while stationary and/or while moving.
- The rover may change equipment and antenna configurations.
- The rover may operate from a vehicle and/or off a vehicle.
- The rover may or may not use commercial power.

The spirit
“A station designed for contesting.”

Cabrillo Values

- For Virginia Stations, mobiles, expeditions and rovers shall indicate LOCATION as VA MOBILE. For example:

LOCATION: VA MOBILE

- Use “/M” in callsign for Mobile, Rover, and Expedition in QSO data. This will give correct scoring.
- The CATEGORY-STATION shall be MOBILE, EXPEDITION, or ROVER. For example:

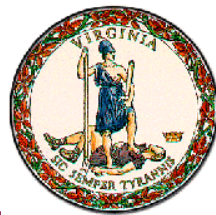

CATEGORY-STATION: MOBILE

CATEGORY-STATION: EXPEDITION

CATEGORY-STATION: ROVER

2023 Rule Changes QSO Points

- QSOs with mobiles, expeditions, and rovers are worth 3 points each.
- Previously,
 - Mobile QSOs were 3 points
 - Expedition QSOs were 1 or 2 points, the same as fixed stations.

2023 Rule Changes

Definition of Virginia Club

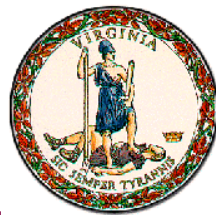

- Simple answer: A club that is entirely or mostly in Virginia
- We will not count logs from outside Virginia in the scores for a Virginia Club plaque.

ARRL

Volunteers-on-the-Air (VOTA)

- VOTA is a year-long ARRL celebration highlighting the contributions volunteers contribute to Amateur Radio.
- Each state has two each, 7-day opportunities to activate as W1AW
 - Virginia's time periods are 15-21 March and 18-24 October.
- Sign up at:
https://docs.google.com/spreadsheets/d/1t_RQDE30fjw95sqd6D7gp8TDdffMMUAhAlWUj8Zmkkg/edit#gid=1758450996

Virginia QSO Party

ARRL Volunteers on the Air

- Sign up at:

https://docs.google.com/spreadsheets/d/1t_RQDE30fjw95sqd6D7gp8TDdffMMUAhAlWUj8Zmkkg/edit#gid=1758450996

- W1AW/4 operators may submit their VOTA logs to the VaQP.
 - The logs will be scored.
 - Points will be credited to the operators/station.
 - Points will be added to that operators/station's regular (i.e., not-VOTA log).
- W1AW/4 operators need to:
 - Operate as a station in the VaQP
 - Record the required VaQP exchange, i.e., SN and QTH.
 - **Email** the log to VQP@verizon.net in Cabrillo format

- Satellite contacts allowed.
- No cross-mode or repeater QSO's.
- Spotting nets, DX clusters, etc., may be used to locate other stations - no self-spotting permitted.
- Logs with a significant number of QSOs with the same station will be categorized as check logs.

2023 Rules Exchange

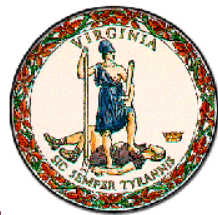

- QSO number and QTH
 - VA County or Independent City for VA stations
 - State, Province or DX Country for others
- VA Mobile and Expedition Stations log QSO's by VA Independent City or County of operation.
- Identify all QSO's with band, mode, sequential QSO number sent/received and date/time of contact in UTC.
- Please follow standard contest practices by making and responding to "CQ VA QSO Party" calls.
- Multiple Transmitter stations may maintain sequential QSO numbers independently for each transmitter.

FT-8

- FT-8 mode allowed.
 - But QSOs must follow same rules as other modes.
- VQP requires serial number and QTH.
 - The serial is a sequential number.
 - NOT the 599 or the -16 used as a signal report.
 - The QTH is:
 - The three letter QTH abbreviations for VA counties and independent cities
 - The two letter abbreviations for states and Canadian provinces/ territories
 - "DX" for other foreign counties.
 - Maidenhead grid coordinates are not valid QTHs.
- **We know of no easy way for WSJT-X to do QSOs in the VQP.**
 - Free form text messages could work, but the number of people who know about and do this is very, very small.
 - We look forward to the day when WSJT-X includes support for the most basic of contest exchanges.

The Shenandoah Valley Amateur Radio Club built their ham shack in 1954 with help from John, N4MM, and Sam, W4WSE, who remain active members.

Perhaps the oldest continuously operating ham shack in VA, the shack is joined by two buildings, modern radios, and antennas.
