

# New 10m Antenna design uploaded to Projects

*Reported 27 April 2010 by Stuart Longland VK4MSL*

Peter Holtham VK4COZ has come up with a  $5/8\lambda$  vertical antenna design suitable for use with squid poles, and provides a reasonable SWR on the club's [HF net frequency](#) of 28.450 MHz. See it in [the Projects section](#).
