Subject: CVS radio room

Hi

I stopped by CVS today about 3:15 pm

My DCS is card worked the main entrance, the Admin door, And the rear station door to parking area The door key to DCS radio room has been re-keyed so I had to borrow key from watch sergeant. Their key works I got into radio room. Looks great. New carpet, paint, etc. desks are re painted and re installed

Sgt Gilbert said that a office desk will be installed along the back wall for IT lady All our stuff is in closet in EOC room I told him we were thinking of Christmas week for re installing radios See attached photos He gave me 3 new LASD radio code books, one for each of us.
