

10/07/2015 Visit to SLA

Key persons met were Sgt Rob Weber, Operations; Sgt John Meehan, Detective but focal point for Disaster Prep, Sgt/Deputy (?) Sean Irving, IT guy whose room the radio equipment is in.

They have 3 operating positions each with 2 radios. From left to right are:

- 1- ICOM IC-2200H 2m
- 1- CDM 1550 VHF
- 2- FT-8900s quadbanders, one set on 10m and 440 and the other set on 6m and 440.
- 1- Alinco 235 Mk III 220
- 1- FT897 all band HF

6 new radios but no members.

They taped up one of my business cards at the middle operating position.

They seemed very interested in our offer of support. No one has been at Station 3 in over 10 years.
