**LCD Screen**

The top screen row displays radio status information:

	<b>Signal Strength</b>	Indicates signal strength; more bars, stronger signal
	<b>Power Level</b>	Low Power "L" or High Power "H" is activated
	<b>Monitor (CSQ)</b>	The radio is on carrier squelch, PL decode is deactivated
	<b>Scan</b>	The Scan feature is active
	<b>Talkaround</b>	The radio is transmitting direct, not through a repeater
