I have contacted the editor of the Newbury daily News. He showed a keen interest in covering our Field Day operations. They will try to be there on Sunday Morning. Dave, KD1NA

ARLX006 2019 W1AW Field Day Bulletin

An emergency preparedness exercise, social gathering, or friendly competition - all these terms and more describe ARRL Field Day 2019.

This event offers seasoned operators and newcomers the opportunity to hone their skills and get on the air under less than ideal conditions in the field.

With all operating modes permitted, many groups may find the Digital Modes, including MSK, PSK, FT8, and others, a highlight while demonstrating their stations to served agencies and the public.

In today's communications environment, one of the best ways for Amateur Radio to interact with the public is through social media. Use Twitter, Facebook, Instagram and other platforms as a quick and easy way to let people know what you are doing before, during and after Field Day.

Earn bonus points for using social media to promote FD. For more information, see the Field Day rules and use #ARRLFD.

Each time you share your excitement on-the-air or in person at events like Field Day, you increase the opportunities to pass that excitement on to others - the prospective new Hams in your communities. Good luck and 73!
