W8MAL						County	State	Latitude	Longitude		

The convention calls for frequency lists to show four digits after the decimal place, followed by either an "N" or a "W", depending on whether the frequency is narrow or wide band. Mode refers to either "A" or "D" indicating analog or digital (e.g. Project 25) or "M" indicating mixed mode. All channels are shown as if programmed in a control station, mobile or portable radio. Repeater and base stations must be programmed with the Rx and Tx reversed.

N8LPQ -146.940 - is assigned to Operations, Skywarn and Hospital Net Primary Ops. Should a Weather or Hospital Net be required during an activation, Hospital Net will be moved to 2m Backup Bravo and Skywarn Ops moved to 2m Backup Delta. Operations will maintain the Repeater.

W8HHF-147.270- is assigned as Resource Net and Backup for all Operations, Skywarn and Hospitals. Should a Skywarn, Hospital or Resource net be required while on this frequency, Hospitals will go to 2M Backup Bravo, Skywarn to 2M Backup Delta and Resources will go to 2m Backup Echo. Operations will maintain the Repeater.

Staging areas are encouraged to use 2M Backup Echo as primary on-site staging area communications yielding the frequency to Resources as needed.

All Digital channels assigned to Operations will be used as a wide-area net only when a regional emergency exists. There are provisions being made to link FM to The DMR System. The Statewide Calling and Statewide ARES Channels are to be used in accordance with the Ohio Section Emergency Response Plan.

P25 TG 31220 is linked to DMR 3188971. P25 TG 419 is linked to DMR 3194284. Said links are full time links

Date	Call	Remarks
05/23/22	W8MAL	Original
05/30/22	W8MAL	Update Henry Co Interop Call K8III → K8TII
03/27/23	W8MAL	Remove 443.775, add 146.835; Remove 444.025 add 443.0875; add P25 Ops
08/02/23	W8VHS	Change Hospital/Wx ops to 146.94
08/04/23	W8MAL	Change 2m Backup Alpha to 146.835/- assign to Command Tac
08/04/23	W8MAL	Add x-band freqs
