README

README for WebSDR Monitor

This zipped folder contains the following:

- WebSDR Monitor:** This PDF document describes what a WebSDR is, and how to use a WebSDR receiver to monitor your FreeDV+ signal.
- RxReplay7A:** This application for Windows is used to play the ".49" files recorded by the RXfftDIFF7L application.
- WindSurf1.49:** This ".49" file was recorded while the WA6NUT FreeDV+ signal was being received by the KFS WebSDR on September 15th, 2017. This WebSDR, at Half Moon Bay, California, is 890 miles from the transmitting location at Buena Vista, Colorado.
