

Net Protocols - Indian Wells Valley Emergency Net

• QST QST QST. Please stand by for the Indian Wells Valley Emergency Net. This is **CALL SIGN**, net control for this session. The Indian Wells Valley Emergency Net meets every Monday night at 1930 hours local time on the Sierra Amateur Radio Club WA6YBN translator on 146.640 MHz.

• The purposes of this net are:

- (1) To pass emergency or priority traffic,
- (2) Test and maintain the emergency capabilities of the Indian Wells Valley Amateur Radio Community, and
- (3) Provide a forum for the passing of information of interest to amateur radio operators.

• Is there any urgent or priority traffic?

• Are there any announcements?

• Amateur Radio Operators who are visitors to the valley are welcome to join the net. Are there any visitors?

• Check in follows. Please check in with your call and if you wish to participate in the round table. Net control will acknowledge all check ins.
