

## ARES DISTRICT 3 NET PREAMBLE

Good evening. This is \_\_\_\_\_ Net Control Station this evening for the ARES District 3 Emergency Service Net serving Grays Harbor, Lewis, Mason, Pacific and Thurston counties. This net meets weekly on the 145.47 Capitol Peak VHF repeater at 1915 hours Local. In the event of a repeater or link failure the net will move to the 444.950 Capitol Peak UHF repeater and then to 3.987 lower sideband.

The purpose of this net is to coordinate the activities of Public Service and Emergency Communications via ARES within this district. This is a directed net. Please give your full call sign using international standard phonetics for recognition by Net Control. I will acknowledge each station as it checks in.

During an actual emergency, a district Operations Net will be established on this frequency to expedite and coordinate Amateur Radio communications and logistics within this District and with the Washington Military Department's Emergency Management Division.

This net will yield the frequency to emergency or priority traffic at anytime. Any station holding emergency or priority traffic, your call sign only now?

Visiting stations are welcome and encouraged to check in after the formal roll call. Stations with traffic for the net, please list your traffic as you check in.

All stations please remember to hold the microphone button down for 2 seconds before speaking so that the multiple repeaters can synch up.

This is \_\_\_\_\_ now calling for check-ins starting with the District 3 Emergency Coordinator

This is _____ now calling the Grays Harbor EC/RO	Other Grays Harbor Stations
This is _____ now calling the Lewis County EC/RO	Other Lewis County Stations
This is _____ now calling the Mason County EC/RO	Other Mason County Stations
This is _____ now calling the Pacific County EC/RO	Other Pacific County Stations
This is _____ now calling the Thurston County EC/RO	Other Thurston County Stations

Missed District 3 ARES team members, your county, call sign and first name now.

That completes our formal roll call. Visiting stations, your county, call sign and first name now.

*(Handle any traffic, bulletins, training issues or discussions)*

Are there any missed check-ins?

This is \_\_\_\_\_ with the ARES District 3 Emergency Service Net thanking all stations for checking in, and thanking the owners and users of the Capitol Peak Repeater, and the Beachnet Repeater System, for the use of the frequency. This is \_\_\_\_\_ out.
